## Objective

Aspiring Computer Engineering student with a strong foundation in Python and web development technologies. Eager to apply my skills in web development, cloud computing, and emerging AI technologies to contribute to innovative projects and gain practical industry experience.

---

## Education

**Charotar University of Science and Technology (CHARUSAT), Gujarat**

Bachelor of Technology in Computer Engineering

2023 – 2027 • CGPA: 9.30

**Shree Swaminarayan Gurukul**

12th Standard – PCM • PR: 97.22

12th Gujcet • PR: 87.80

2021 – 2023

---

## Skills

**Programming Languages:** Python, JavaScript

**Web Development:** HTML, CSS, Frontend Development, Backend Development

**Database:** MySQL, MongoDB

**Tools & Technologies:** AI tools, Cloud Computing fundamentals

**Soft Skills:** Teamwork, Effective Communication, Problem-solving

---

## Projects

### 1. Discover Destination

*Tour and Travel Booking Website with 360° View Feature*

Developed a platform for booking travel packages with interactive panoramic views.

Integrated user-friendly navigation and responsive design.

### 2. View Wear

Developed "ViewWear," an interactive platform for customizing T-shirts in a 3D view, facilitating buying and selling, and integrating a chatbot for user assistance. Enhanced user engagement with real-time customization and e-commerce functionality.

### 3. People's Pulse

*Civic Empowerment Website*

Created a website to facilitate easy government complaint submissions and access to local government policies. Included multilingual support to cater to diverse local language users.

### 4. AI Voice Assistance

*Personal Voice Assistant for Laptops*

Developed a voice-controlled assistant similar to Siri and Alexa.

Designed for improved user productivity and ease of use on desktop systems.
